I understand that there will be a return check fee for any draft that is returned unpaid and If an overcharge occurs because of a misreading I understand that the amount drafted cannot be returned back into my account, it will instead act as a credit toward my bill Until the credit is depleted. If I see an error may have been made on my bill I understand I will need to call the water department by the 4<sup>th</sup> of each month so that it can be corrected before being drafted.
